

# Galvanized and Painted Rolled Products: Trends in Production and Use

The 14th International Conference, 14 - 15 March 2019, Russian Federation, Moscow  
[www.ocinkovka.su](http://www.ocinkovka.su)

Coated Steel Market continues its restructuring process. Against the backdrop of stagnant demand, new entrants mastered the process of application of protective and decorative coating for flat-rolled products by gradually gaining ground and increasing capacities. These issues would be raised and fully discussed at the 14th International Conference «**Galvanized and Painted Rolled Products: Trends in Production and Use**».

**Organizer:** Metal Supply & Sales, magazine, endorsed by the Russian Union of Metal and Steel Suppliers, the International industrial exhibition METAL-EXPO and SteelStructures.

**Date:** 14 - 15 March 2019

**Venue:** Russian Federation, Moscow, Business Hotel "BORODINO" (Moscow, 13/5 Rusakovskaya st.)

## The main topics of the conference included:

- Investment and sales policy of galvanized and coated rolled products producers in Russia, Belarus, Kazakhstan and Ukraine.
- Import of galvanized and painted rolled products: place in the Russian market.
- Dynamics of consumption and production of galvanized and coated products
- Legal regulation of galvanized and painted rolled products market.
- How to choose the right equipment for the processing coated products.
- Steel Structures Market and further processed products: trends in processing, effective protection from low-quality products.
- Processing and distribution in galvanized and painted rolled products market.
